Core color scales

Three scales feed every token. Basil carries the Serve identity, Magenta links back to the Frontline parent brand, Cool Gray builds the UI.

Orders, tables & data colors

Status chips pair a strong foreground with a soft fill. Never rely on color alone: always show the label or an icon.

In use

The same tokens rendering a kitchen order board in each mode.

Overdue tickets use border.focus (accent) and the danger color for elapsed time. Primary action uses primary.default.
